EDUCATION

Bachelor of Business Administration (HR)

ICM, Dehradun

2019–2022

WORK EXPERIENCE

ASC, Dehradun

2022–2024

Business Operations Analyst

- Managed institutional partnerships and stakeholder relationships across schools and colleges.
- Maintained and validated operational, admissions, and sales datasets using Microsoft Excel.
- Developed Excel-based dashboards and management reports to track business performance and operational metrics.
- Prepared presentations and performance reports for founders to support strategic decision-making.
- Monitored lead-generation activities, conversion metrics, and sales pipeline performance.
- Supported admissions operations, collections, and cross-functional coordination.
- Utilized CRM tools to track customer interactions, sales, maintain records and generate reports.

Business Impact

- ✓ Trusted by leadership to prepare executive-level reports and dashboards.
- ✓ Contributed to business growth through partnership development and client acquisition activities.
- ✓ Supported strategic decision-making through data analysis and performance reporting.
- ✓ Demonstrated cross-functional expertise across sales, analytics, operations, and administration.

PROJECTS

IPL Analytics Dashboard | Power BI

[ipl-dashboard](#)

Tools: Power BI, DAX, Data Modelling

- Developed a 3-page IPL Analytics Dashboard in Power BI using match-level and ball-by-ball datasets.
- Built a star-schema data model and created advanced DAX measures for KPIs, Orange Cap, Purple Cap, Economy Rate, and Phase Analysis.
- Designed interactive dashboards with dynamic filters, navigation buttons, KPI cards, and drill-down insights.
- Delivered batting, bowling, team, venue, and toss-performance analytics through data-driven visualizations

Customer Churn Analysis | Python

[customer-churn-analysis-python](#)

Tools: Python, Pandas, NumPy, Matplotlib

- Performed end-to-end exploratory data analysis to identify key drivers of customer churn.
- Conducted correlation analysis and customer behavior segmentation.
- Built visualizations highlighting retention patterns and business risk indicators.
- Generated recommendations to improve customer retention strategies.

HR Analytics Dashboard | Excel

[HR-analysis-excel-dashboard](#)

Tools: Excel, Pivot Tables, VLOOKUP, KPI Dashboarding

- Developed an interactive HR Analytics Dashboard analyzing workforce, attendance, recruitment, and attrition metrics for 500 employees.
- Built dynamic KPI tracking for employee count, attrition rate, hiring success rate, attendance percentage, and salary analysis.
- Performed data cleaning, validation, modeling, and reporting using advanced Excel functions and Pivot Tables.

Quick Commerce Operations Analysis | SQL

[quick-commerce-sql-analysis](#)

Tools: MySQL

- Designed an interactive dashboard using Pivot Tables, Pivot Charts, and Slicers.
- Analyzed ride demand, revenue performance, driver ratings, and trip distance trends.
- Developed KPI metrics for operational monitoring and business reporting.
- Presented insights through executive-friendly visualizations.
